

## Centerpoint Health – Paris

**Centerpoint Health – Paris's** mission of *making communities healthier*<sup>®</sup> is at the heart of everything we do. It is deeply embedded in how we provide high-quality care for patients, expand and enhance our services, and make meaningful investments to promote the health and economic growth of our region.

For us, healthcare is personal. We are caring for our own neighbors, family, friends and loved ones. That's why we focus on advancing local care and keeping patients where they want to be – close to home. We are committed to meeting the unique needs of all those we serve, both inside and outside our hospital walls, and strive to be the preferred healthcare destination when our community members need care.

Together with Lifepoint Health and community partners like you, we continue to advance our mission and create places where people choose to come for healthcare, physicians and providers want to practice and employees want to work. It is our privilege to serve you.

We are pleased to share this summary of our impact in 2025.
